## Steps

1. Blueback is a Western blue groper, a demersal species of fish found in Western Australian waters. Students will use the Fact sheet: [Western blue groper](#), prior research they may have done in the Lesson: [Exposition](#), and Student worksheet: [Fishbone graphic organiser](#) to research this species. Some suggested research headings include: distribution, life cycle, habitat, diet, vulnerability.
2. Ask students to consider how the information provided in the fact sheet differs to the text in Blueback in terms of language and structure.
3. Students will use information collected to present either a poster, presentation or report (or any other format of your choosing).
