

Lesson: Mangrove creature feature

Phase of learning

Years 5 - 6, Years 7 - 8

WA Curriculum

K-10 English, K-10 Science

Region

North Coast, Gascoyne Coast, West Coast

Summary

Students will investigate an animal or plant that depends upon mangroves for survival.

Outcomes

- Students will research an animal or plant that depends upon mangroves for survival.
- Students will produce a report, poster or presentation on their findings about their chosen organism.

Duration

1 hour

Preparation

Background information about mangroves may be found in the Fact Sheet: [Mangroves](#) and Poster: [The Mysteries of Mangroves](#).

This lesson may be used as a standalone lesson, however it will also build on knowledge from the Lesson: [What are mangroves?](#)

In this lesson, students will complete research on a species found in the mangrove environment. Students could present their findings as a poster, a presentation or a written report.

The Student Worksheet: [Mangrove creature feature](#) will provide students will some guidance for information to be gathered during their research.

Western Australian curriculum

LEARNING AREA	STRAND	SUB-STRAND	CODES
Science	Science	Biological sciences	ACSSU073,

understanding

			ACSSU043
English	Language	Expressing and developing ideas	ACELA1498
English	Literacy	Creating texts	ACELY1694, ACELY1704
